

## You Have a PIN!

On September 19, 2010 access to your online library card account will change. You will be required to log-in to the catalog using your library card number and a PIN.

By default, your PIN will be the last 4 digits of the phone number registered on your library card account. Upon logging-in for the first time after September 19, you are encouraged to change your PIN to something that is easy for you to remember.

To ensure the phone number on your library account is correct please call the library, 273-3887 in Armonk, 948-6359 in No. White Plains. Please be prepared to supply your library card number.

To accommodate this change, the catalog will have limited availability on the evening of Sunday, September 19, 2010
